FROM THE FOUNDER

Why fitting comes first.

I am building MAXIMUS TENNIS so that people can find a racquet that suits their game. That takes choice: trying different configurations on court, feeling the difference and continuing the fitting when the first option is not right.

Behind each specification is a person — how they move, what feels comfortable and how they want to play. A visitor once came to our showroom to replace the grip of a twenty-year-old racquet. In the fitting she found 263 g too light and 270 g a little heavy; at 267 g she found her racquet.

That is what a broad range is for: comparing nearby configurations until the right one is found. Our range is designed to remain and to grow. We add choices and preserve the value of what already exists.

Maximus Kiriyakulov
Founder of MAXIMUS TENNIS

Copyright © 2026 Maximus Kiriyakulov

FROM THE FOUNDER

The partners we want to build with.

I see the next stage of MAXIMUS TENNIS in full-service fitting centres. Players need meaningful choice, coaches need to compare configurations, and partners need the resources to serve their customers.

A development partnership begins with a wider conversation: the partner's capabilities, the people they reach and the centre they are prepared to create. If the first racquet does not suit the player, we keep looking for a better fit; the terms of further fitting are clear before purchase.

MAXIMUS TENNIS is part of the wider MAXIMUS ecosystem, where players, coaches, clubs, schools and programme partners work together. Tell us about your market and resources — that is where our conversation begins.

Fitting-centre model: page 33. National route: page 36.

PRECISION PHILOSOPHY

Precision deserves attention.

A small margin can decide a match: a ball touching the line is in, a ball beyond it is out. Details deserve attention in proportion to the role they play in the whole system.

Mass, balance, swingweight, stiffness, strings and technique work together. For us, 0.5 g or 0.5 mm is a reason to measure carefully and explain what the result means. A stiffness number has value when its method and conditions are clear.

The player is always central: comfort, handling and the physical demands of a setup belong in the conversation alongside performance.

Measurement specifications are agreed for each configuration. Precision system: page 20.

Copyright © 2026 Maximus Kiriyakulov

A PERMANENT BASE

A permanent base. Individual development.

The range is built around configurations a player can choose deliberately and keep using.

01 Matte-black base
The permanent character of every MAXIMUS racquet.

02 Individual design on top
Names, initials, numbers, club and corporate designs.

03 Additions, not replacements
New lengths, weights, sizes and tools add choice.

04 Chosen by the player
Selection starts from the player and the purpose.

05 Long-term partnership
Lasting value rather than seasonal sales cycles.

MAXIMUS TENNIS IN THE ECOSYSTEM

Join forces. Create more together.

MAXIMUS BRINGS

- Fully carbon racquets: GREAT, POWER and SPIN
- Sweet Spot Trainer and Spot Trainer
- A coach-led methodology
- Personalisation from engraving to full design
- Production to a written specification

YOU BRING

- Your players, members and clients
- Your coaching expertise
- Your courts, events and community
- Your reach in your market

Together: a stronger sporting offer, a product line carrying your identity and a business that grows on both sides — from one club to a national network.

Each programme carries its actual status in words; the status list is on page 54.

Copyright © 2026 Maximus Kiriyakulov

HOW TO CHOOSE

Choose in seven steps.

01 Series
GREAT, POWER or SPIN by playing direction.

02 Precision class
P2.5, P1.5 or P0.5; ZERO by agreement.

03 Weight and length
One of 33 listed weights; one of seven lengths.

04 Grip size and shape
Fifteen sizes L0–L7 in half steps; three shapes.

05 Target stiffness
Request 30–90 RA; confirmed before production.

06 Personalisation and set
Engraving, matched sets, quantity.

07 Request
The configurator stores it and returns a request ID.

A request is not an order, a price or a delivery date; those are confirmed in writing.

Copyright © 2026 Maximus Kiriyakulov

COMPARE THE SERIES

Three series. One construction standard.

Fully carbon from frame to handle. The same precision classes, lengths and grip sizes for every series.

Series	Head size	Direction	33 weights
GREAT	97 in²	Control	236–369 g
POWER	98 in²	Power	210–377 g
SPIN	100 in²	Spin	222–377 g

GREAT. Control: compact head, precise contact. Page 10.

POWER. Energy transfer: depth and pace. Page 12.

SPIN. Ball behaviour: rotation and margin. Page 14.

Balances on record refer to 27 in: GREAT and POWER calculated, SPIN confirmed. Full tables: pages 57–59.

MAXIMUS GREAT

GREAT. Control.

The 97 in² GREAT architecture is built around control: a compact head, precise contact and directional confidence.

33 LISTED WEIGHTS, G

236	239	242	245	248	251
254	257	260	263	266	269
272	277	280	284	288	292
295	299	303	306	309	313
319	323	329	333	339	344
355	363	369			

Balance at 27 in	321–343 mm, calculated
Lengths	seven, 26.3–27.9 in
Grip sizes	15: L0–L7 in half steps
Variants	33 × 7 = 231

A new length inherits no balance; balances on record refer to 27 in. Table: page 57.

MAXIMUS POWER · 98 IN² · POWER

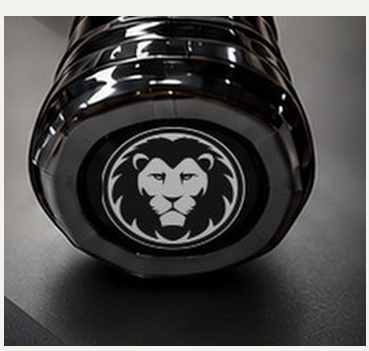

String bed

Throat and profile

Handle and butt cap

Shown: MAXIMUS POWER 98 · 320 g — owner composition and details from it.

Copyright © 2026 Maximus Kiriyakulov

MAXIMUS POWER

POWER. Depth and pace.

The 98 in² POWER architecture is built around energy transfer: depth and pace from a stable frame.

33 LISTED WEIGHTS, G

210	215	220	225	230	235
240	245	250	260	265	270
275	280	285	290	295	300
305	310	315	320	325	330
335	340	345	350	355	360
365	370	377			

Balance at 27 in	320–347 mm, calculated
Lengths	seven, 26.3–27.9 in
Grip sizes	15: L0–L7 in half steps
Variants	33 × 7 = 231

A new length inherits no balance; balances on record refer to 27 in. Table: page 58.

Copyright © 2026 Maximus Kiriyakulov

MAXIMUS SPIN · 100 IN² · SPIN

String bed

Throat and profile

Handle and butt cap

Shown: MAXIMUS SPIN 100 · 290 g — owner composition and details from it.

This composition shows the head, profile and handle; a single head-to-butt-cap view of SPIN is not yet in the approved image set.

Copyright © 2026 Maximus Kiriyakulov

MAXIMUS SPIN

SPIN. Rotation and margin.

The 100 in² SPIN architecture is built around ball behaviour: rotation, margin and trajectory shaping.

33 LISTED WEIGHTS, G

222	229	233	236	239	243
247	250	253	257	260	263
267	270	273	277	280	283
287	290	294	297	315	320
325	330	333	339	347	355
360	366	377			

Balance at 27 in	315–339 mm, confirmed
Lengths	seven, 26.3–27.9 in
Grip sizes	15: L0–L7 in half steps
Variants	33 × 7 = 231

A new length inherits no balance; balances on record refer to 27 in. Table: page 59.

Copyright © 2026 Maximus Kiriyakulov

SEVEN LENGTHS

Seven lengths. One scale.

Every listed playing weight and both trainers come in the same seven request lengths.

Length	mm	Position	Playing
26.3 in	668.02 mm	Short	99
26.6 in	675.64 mm	Short	99
26.8 in	680.72 mm	Short	99
27 in	685.80 mm	Standard	99
27.3 in	693.42 mm	Plus	99
27.6 in	701.04 mm	Plus	99
27.9 in	708.66 mm	Superlong	99

DRAWN TO ONE SCALE

Any other length is a Custom Made request (page 32). Competition eligibility is checked separately.

Copyright © 2026 Maximus Kiriyakulov

GRIP SIZE

Fifteen sizes. L0 –L7 in half steps.

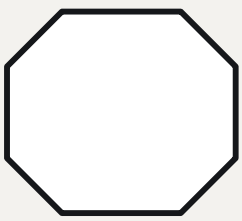

Size	Nominal	Circumference	Basis
L0	4 in	101.6 mm	Library
L0.5	4 1/16 in	103.2 mm	Request
L1	4 1/8 in	104.8 mm	Library
L1.5	4 3/16 in	106.4 mm	Request
L2	4 1/4 in	108.0 mm	Library
L2.5	4 5/16 in	109.5 mm	Request
L3	4 3/8 in	111.1 mm	Library
L3.5	4 7/16 in	112.7 mm	Request
L4	4 1/2 in	114.3 mm	Library
L4.5	4 9/16 in	115.9 mm	Request
L5	4 5/8 in	117.5 mm	Library
L5.5	4 11/16 in	119.1 mm	Request
L6	4 3/4 in	120.7 mm	Library
L6.5	4 13/16 in	122.2 mm	Request
L7	4 7/8 in	123.8 mm	Library

Nominal circumference = 4 + L/8 in; a half step adds 1/16 in (1.59 mm). Not a measured perimeter of a finished handle. Library: the eight whole sizes of the National Package. Request: confirmed per configuration.

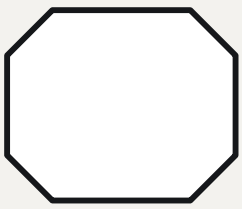

Copyright © 2026 Maximus Kiriyakulov

GRIP SHAPE

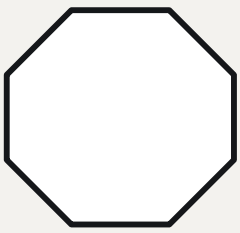

Size and shape: two choices.

Classic
Balanced octagon; top and bottom bevels slightly longer.

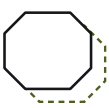

Rectangular
Flatter, more elongated; broad top and bottom bevels.

Even-sided
All eight bevels close to equal; closer to round.

Cross-sections of one grip size. Schematic; not to scale.

Your current handle
Individual reproduction of the handle of the racquet you play now, on request: name its brand and model. Possible only after a technical feasibility check; the geometry is agreed in writing before production.

Not sure yet
We agree the shape with you before production.

Every shape can be requested in every size and for every family. Three schematic profiles, not production drawings; a shape is an order option and multiplies no count.

Copyright © 2026 Maximus Kiriyakulov

FRAME STIFFNESS

Request a target from 30 to 90 RA.

Frame stiffness is chosen as its own parameter, separately from weight, balance and swingweight. It is never derived from the weight or the series name.

State the target you want in RA anywhere from 30 to 90. No value is preset and no step is imposed; a request may name, for example, 67 to 73 RA — examples, not limits.

The chosen configuration is confirmed for manufacture before production. The request range does not mean every combination is available as stock.

Request	30–90 RA, frame stiffness — not string tension
Confirmation	before production, per configuration
Tolerance	by precision class — page 20

Copyright © 2026 Maximus Kiriyakulov

PRECISION SYSTEM

Four parameters. One system.

Each class sets how tightly a finished racquet holds its declared specification.

Class	g	mm	kg·cm²	RA
P2.5	±2.5	±2.5	±2.5	±1
P1.5	±1.5	±1.5	±1.5	±0.5
P0.5	±0.5	±0.5	±0.5	declared

P2.5 — Scalable performance core.

P1.5 — Advanced precision.

P0.5 — Professional, individually controlled.

Weight, balance, swingweight and stiffness are separate parameters; a tolerance of one is never transferred to another. P0.5 conforms to the declared RA under the established factory measurement method — not a promise of zero measurement error. Records grow with the class, up to serial identity and a Precision Certificate where the order programme provides them.

Copyright © 2026 Maximus Kiriyakulov

EXCLUSIVE OPTION

ZERO — Zero Gram Tolerance.

The three classes hold a racquet inside a declared band. ZERO removes the band: the racquet is built and measured until the reading equals the declared figure at the resolution of the factory instrument, and that reading is issued with it.

Agreed individually for one racquet or one matched set; by agreement also for balance and swingweight. Not a fourth class. An identical displayed figure is not a claim of zero physical variation.

MATCHED SETS

Pairs, triples and team sets follow criteria defined for the set, separately from individual tolerance. They are requested in the configurator and confirmed in writing.

Copyright © 2026 Maximus Kiriyakulov

THE MATRIX

1,547 variants. A fixed reference library.

Family	Variants	× 8 sizes
GREAT	33×7=231	1,848
POWER	33×7=231	1,848
SPIN	33×7=231	1,848
Sweet Spot Trainer	61×7=427	3,416
Spot Trainer	61×7=427	3,416
Total	**1,547**	**12,376**

Reference library: 1,547 variants × the eight whole grip sizes L0–L7 = 12,376 combinations; its composition is fixed.

Individual requests: the half sizes, shapes, precision classes, target RA and custom lengths are chosen per order and confirmed per configuration. They are not counted in the library.

The matrix lists what can be requested. It is not stock, a price list or production approval of every combination.

SPOT TRAINER

Find the exact point. Repeat it.

200–500 g in 5 g steps, each in seven lengths: 427 variants.

200	265	330	395	460
205	270	335	400	465
210	275	340	405	470
215	280	345	410	475
220	285	350	415	480
225	290	355	420	485
230	295	360	425	490
235	300	365	430	495
240	305	370	435	500
245	310	375	440	
250	315	380	445	
255	320	385	450	
260	325	390	455	

An example session: find the point with Spot Trainer, load the zone with Sweet Spot Trainer, then transfer to the playing racquet. The coach sets order, load and duration.

Copyright © 2026 Maximus Kiriyakulov

KITS

Build a system around your racquet.

01 Playing kit
Several playing racquets at the player’s length and grip.

02 Individual training system
Playing racquets with both trainers at one length.

03 Coach kit
Trainers across the weights the coach works with.

04 Club kit
A club library for fitting days, matched sets and teams.

05 National library
The full reference collection — page 35.

AN EXAMPLE, NOT A RULE

$$6 + 5 + 5 = 16$$

Six playing racquets, four or five of each trainer: 14 to 16 items at one length. Not a requirement; no price is implied.

Copyright © 2026 Maximus Kiriyakulov

GRIP WRAPS

Towel. Cloud. Grippy.

Three MAXIMUS grip wraps with their own identities. They finish the handle; they do not change its size designation — the fifteen grip sizes are factory handle geometry.

Wrap	Confirmed pack sizes
Towel	packs of 30 and 50
Cloud	packs of 10 and 30
Grippy	packs of 10 and 30

Packs of three are no longer planned.

Status: In development. Packaging design is in preparation. Materials, prices and availability are announced at release; until then the wraps are not part of the orderable range.

Copyright © 2026 Maximus Kiriyakulov

THE METHOD

One coaching process, transferred to real play.

01 Objectives
The player’s goals and starting point.

02 Equipment
Selected with the coach involved.

03 Practice
The relevant training system, coach-led.

04 Record
Observations of actual participation.

05 Reassess
At comparable checkpoints.

06 Adjust
Configuration, task or workload.

07 Transfer
Back to rallies, points and matches.

Records keep their source — participant-declared, guardian-confirmed, coach-validated or measured. Progress is never invented.

Copyright © 2026 Maximus Kiriyakulov

METHOD IN PRACTICE

Expertise meets implementation support.

01 Prepare and implement
Method materials, equipment selection and fitting, loading guidance, sample sessions and coach preparation. Your team leads coaching and player care.

02 Connect player, coach and family
Objectives and practice records link each exercise to normal play; families see continuity instead of guesswork.

03 Build your coaching identity
Authored programmes, professional materials and Coach to Brand.

Formats: racquet testing, fitting sessions, coach-supported demonstrations, team and academy demo days. Lead, timetable and fees are agreed together.

Copyright © 2026 Maximus Kiriyakulov

YOUR IDENTITY × MAXIMUS

Make the racquet your own.

The silver engraving zone on the matte frame.

Silver engraving — a name, initials, a number, a club or academy mark. Full design briefs go further: player and coach editions, family collections, club and corporate sets, Player to Brand and Coach to Brand.

Names, marks and designs are rights-cleared and approved before production. Batches of 100–200 are discussion examples, not a minimum. A collection transfers no IP, territory or exclusivity by itself.

Copyright © 2026 Maximus Kiriyakulov

CUSTOM ENGINEERING

Your requested specification.

01 Define the request
Series or project, exact length, mass, grip, target RA, purpose, quantity and use.

02 Engineer and validate
Structure, materials, balance, swingweight, stiffness, measurement basis, tolerances and test evidence.

03 Agree before manufacture
The approved specification, sample acceptance, timing and delivery in writing.

04 Produce and control
Production to the written specification with records for the class.

Custom racquets are supplied unstrung. The ITF limits overall length to 73.7 cm (29.0 in); a request above it is not competition compliant, and length alone does not establish full conformity.

Copyright © 2026 Maximus Kiriyakulov

FITTING CENTRE

Build a fitting centre. Develop your market.

01 Start with your capacity
Budget, team, facilities and verified reach. Aggregated information is enough; no customer list is transferred.

02 Equip for meaningful choice
A substantial centre works with around 1,000 racquets — a scale reference, not a minimum order.

03 Fit on court and keep fitting
If the first racquet is not right, fitting continues; terms are set in writing before purchase.

04 Serve the customer
Matched sets, service and repeat orders from the reference library.

Copyright © 2026 Maximus Kiriyakulov

MAXIMUS PRO SHOP · CONCEPT CLUB

Thousands of configurations. One exact racquet.

01 **Select the exact configuration**

02 **The system identifies the cassette**

03 **The cassette moves behind glass**

04 **Protected delivery at the hatch**

05 **The racquet in your hand**

06 **Return through a separate bay**

07 **Checked and stored again**

An architectural concept. Engineering feasibility, capacity and certification are not yet established; the brief covers loads, guarding, emergency stop and safe interaction with children.

Copyright © 2026 Maximus Kiriyakulov

NATIONAL PACKAGE

Two of every configuration for your country.

Family	Combinations	Units
GREAT	1,848	3,696
POWER	1,848	3,696
SPIN	1,848	3,696
Sweet Spot Trainer	3,416	6,832
Spot Trainer	3,416	6,832
Per country	**12,376**	**24,752**

A permanent reference and fitting library: every listed weight × seven lengths × the eight whole grip sizes × two copies. Half sizes and new options never change its fixed composition.

Sales stock and additional orders are planned separately. Feasibility, specifications, price and supply terms are agreed in writing.

Copyright © 2026 Maximus Kiriyakulov

NATIONAL CENTRES

A route for a country.

01 Ministry or institution
Sets the public objective; decides on a mandate or letter of intent.

02 Public-private partnership
Shares delivery and responsibilities; decides on a written framework.

03 Operator
Runs the fitting centre and the National Package; decides on the operating plan.

04 Investor
Funds equipment or facilities on written terms; decides on investment — no return is promised.

The route links the National Package (page 35) with fitting centres (page 33).

A proposal, not a concluded agreement: no state approval, funding or partnership is claimed. First step: a written enquiry naming the country and the roles.

Copyright © 2026 Maximus Kiriyakulov

COMMERCIAL ROLES

Three roles. One platform.

01 Brand representative
Leads promotion, relationships and programme development in an agreed market; the mandate sets responsibilities and territory.

02 Distributor
Supplies clubs, coaches and dealers; agreed dropshipping sends goods straight to the customer.

03 Direct retailer
Sells to players, members and private clients, buying direct from MAXIMUS.

One operator can combine all three roles; each sale follows one channel. Coaches can choose the method or a collection without taking on distribution.

Copyright © 2026 Maximus Kiriyakulov

BRAND POLICY

Lasting value, not discount dependence.

01 No discount campaigns
No dumping, clearance sales or seasonal discount campaigns on MAXIMUS products.

02 A stable product identity
The range grows through meaningful additions; launches are coordinated with partners.

03 Defined channels and service
Supply runs through agreed channels; every arrangement names who handles warranty, returns and fulfilment.

Retail partners set their own resale prices. Channel protections are written into each agreement as far as the law allows.

Copyright © 2026 Maximus Kiriyakulov

TWO STREAMS

Commercial growth. Wider sporting opportunity.

Commercial activity	Equipment sales and services on commercial terms; the seller is named in each order.
Programme funding	Grants, sponsorship, philanthropy and patronage for participation, access and education.
Institutional layer	MAXIMUS INVESTMENT BUSINESS CLUB NPIO (DIFC), where a programme establishes that role — not a seller of equipment.

Separate accounts, documented contributions: select, fund, deliver, report.

Programme terms protect participants and funders: safeguarding, consent for images and data, transparent reporting, no double funding.

Copyright © 2026 Maximus Kiriyakulov

PARTICIPATION AMBITIONS

A larger sporting future.

100×	children and juniors, from each programme’s baseline
100×	amateurs and seniors, from each programme’s baseline
1,000,000	children in organised competition
5,000 + 5,000	men and women in active professional participation — the initial ambition

Bring people into tennis; give them reasons to stay — coach education, camps, events, leagues and the club as a community.

Ambitions, not results or forecasts. Baselines, timescales, geography and measurement are set for each programme.

Copyright © 2026 Maximus Kiriyakulov

MAXIMUS SPORTS NETWORK · MODULES 01–04

Connect the sporting journey.

01 MAXIMUS ID & sporting records By agreement

Access-controlled records of equipment and development.

02 Players, coaches & club discovery By agreement

Verified profiles, shared only with the participant's consent.

03 Training & development By agreement

Objectives, practice, coach observations, reassessment, continuity.

04 Club OS In development

Proposed tools for club administration, workflows and services.

Copyright © 2026 Maximus Kiriyakulov

MAXIMUS SPORTS NETWORK · MODULES 05–08

Connect the sporting journey.

05 Courts & equipment rental — In development

A future route to booking and rental under operator terms.

06 Competitions, leagues & rankings — By agreement

Competition records; internal rankings are not federation rankings.

07 Sports Talks & media — By agreement

Rights-cleared discussions, education and community stories.

08 Talent & sponsorship — By agreement

Connects eligible development needs with agreed support.

Copyright © 2026 Maximus Kiriyakulov

MAXIMUS SPORTS NETWORK · MODULES 09–12

Connect the sporting journey.

09 Equipment & services — Current

Configuration, supply, fitting and service relationships.

10 Facilities & regional partners — By agreement

Access, venue development and regional delivery capacity.

11 Education & institutional cooperation — By agreement

Training, research and public-benefit projects.

12 Digital identity, evidence & technology — In development

Traceable records of identity, origin and ownership — a roadmap.

Directory, booking, messaging, transactions and automated accounts are not live services yet. Children’s and confidential records stay private by default.

Copyright © 2026 Maximus Kiriyakulov

24 PROGRAMMES · 01–04

Players, families & coaches.

01 MAXIMUS GPS & equipment selection

Current

For: players, parents and coaches

Goals, level and preferences become a written equipment profile, with coach-supported fitting.

First step: the GPS questionnaire on maximus.tennis or an equipment enquiry.

02 MAXIMUS training methodology

By agreement

For: coaches and academies

A repeatable process — objectives, targeted practice, reassessment, transfer to match play.

First step: a coaching enquiry with your players' objectives.

03 Coach partnership & education

By agreement

For: coaches

The methodology, the training tools and fitting across the full range, added to your experience.

First step: a coach enquiry; scope, fees and use are set in writing.

04 Family development programme

By agreement

For: parents and guardians

Equipment decisions, coaching continuity and private records around one objective for your child.

First step: a family enquiry from a parent or guardian.

Copyright © 2026 Maximus Kiriyakulov

24 PROGRAMMES · 05–08

Players, families & coaches.

05 Junior development sponsorship

By agreement

For: promising juniors

Equipment, a personal design, preparation, method support and promotion in one package.

First step: a guardian-approved application; support is allocated, never automatic.

06 Young talent & access to sport

By agreement

For: communities, schools and funders

Projects that open equipment, coaching and competition to young people who would otherwise miss them.

First step: a proposal naming the need, local partner and team.

07 Coach to Brand

By agreement

For: coaches with a method worth their name

Your expertise becomes an authored programme, materials and an individual collection.

First step: a brand enquiry; ownership, pay and use are fixed first.

08 Player to Brand

By agreement

For: players building a public identity

Your name becomes a collection, a portfolio and an agreed promotional programme.

First step: a brand enquiry; royalties attach only to your licensed package.

Copyright © 2026 Maximus Kiriyakulov

24 PROGRAMMES · 09–12

Identity, representation & rights.

09 Ambassadors & content creators

By agreement

For: sporting voices and creators

Authentic content and agreed promotion, paid as agreed work, with rights handled properly.

First step: your portfolio and the audience you reach.

10 MAXIMUS Sports Agent

By agreement

For: players who need representation

Connects your sporting record with sponsorship, events and development opportunities.

First step: a verified enquiry; a separate mandate sets fees and safeguards.

11 Licensing & royalty programmes

By agreement

For: rights holders and operators

A defined brand, product or content package earning a share of qualifying sales on its own terms.

First step: a licensing enquiry naming the rights and market; no default rate.

12 Owner records & continuity

In development

For: owners of MAXIMUS racquets

A permissioned record linking a racquet's identity, configuration and service history with its owner.

First step: an owner enquiry with the product or serial reference.

Copyright © 2026 Maximus Kiriyakulov

24 PROGRAMMES · 13–16

Identity, representation & rights.

13 Clubs & academies

By agreement

For: club owners and academy leads

Team equipment, matched sets, the training system, fitting days and events.

First step: a club brief with your programmes and delivery lead.

14 Dealers & retailers

By agreement

For: pro shops and retailers

Direct supply, assortment support and personalised orders; you set your own resale prices.

First step: a retail enquiry describing your channel and service.

15 Distributors & country development

By agreement

For: companies ready to build a market

Wholesale channels plus a development mandate in one country role.

First step: a market plan for your country.

16 Personalised & co-branded collections

By agreement

For: players, teams, clubs and companies

Your identity on your own MAXIMUS collection — from engraving to a co-branded range.

First step: a design brief with rights-cleared marks.

Copyright © 2026 Maximus Kiriyakulov

24 PROGRAMMES · 17–20

Clubs, supply & events.

17 Events, leagues & camps

By agreement

For: clubs, coaches and organisers

Joint events that bring play, community and product experience together.

First step: an event proposal with venue, budget and responsibilities.

18 Sports facilities & club networks

By agreement

For: venue owners and regional partners

Cooperation that extends access, year-round activity and infrastructure.

First step: a facilities brief on local need and operating capacity.

19 Engineering & manufacturing partnerships

By agreement

For: technical partners

Materials, processes and manufacturing capability for defined development projects.

First step: a technical brief; confidentiality and IP are agreed first.

20 Training equipment systems

Current

For: coaches and clubs

Sweet Spot Trainer and Spot Trainer with structured practice and equipment feedback.

First step: a demonstration or fitting request.

Copyright © 2026 Maximus Kiriyakulov

24 PROGRAMMES · 21–24

Institutions & benefits.

21 Education, research & institutions

By agreement

For: universities, federations and institutions

Expertise for methodology, evidence, innovation and social initiatives.

First step: a proposal naming the objective and participants.

22 Institutional Membership

By agreement

For: organisations and individuals

Membership of MAXIMUS INVESTMENT BUSINESS CLUB NPIO (DIFC), with programme support and duties.

First step: an application; support starts with agreed duties and paid membership.

23 Purchase & participation privileges

In development

For: customers and participants

Privileges earned through purchases and programme activity in the MAXIMUS loyalty programme.

First step: ask for the current programme terms.

24 Loyalty & payment partnerships

In development

For: banks, payment providers and partners

The loyalty programme rewards purchases and participation; payment partners are invited to co-fund it.

First step: a partner enquiry on co-funded rewards.

SIX MECHANISMS

Different contributions. Defined benefits.

01 Purchase bundles
Equipment and services in one order; the order names the seller and the scope.

02 Family and junior support
A separately funded development package — never cashback.

03 Creator and partner rewards
Payment for agreed work: content, events, introductions.

04 Contractual royalties
A share of qualifying sales of a licensed package; no default rate.

05 Institutional participation
Membership benefits matched by membership duties.

06 Loyalty and payment partners
Loyalty rewards; payment partners are invited to co-fund them.

Each mechanism has its own provider, funding, calculation base and duration, in writing. No standard return is promised; membership and investment are separate from purchases.

Copyright © 2026 Maximus Kiriyakulov

COOPERATION

Exchange of value.

Besides payment in money, individual partnerships may provide for an agreed exchange of goods, services or a useful contribution. Scope, valuation and terms are fixed in a separate written agreement.

How do you value this racquet? Tell us the configuration, the price you consider fair, the currency, quantity, country and purpose. It is research into perceived value and the start of a conversation — not a purchase and not a price list.

Copyright © 2026 Maximus Kiriyakulov

MEETINGS AND FORUMS

Meet the people building the game.

The first meeting under consideration is in Dubai; other cities follow expressed interest. Write with your city, the city where you would meet, the number of participants, your role and your interest: products, a club, a national programme, infrastructure or partnership.

No date, venue, speakers or partners are set. Travel and hotel offers are planned possibilities, not available services.

DEVELOPMENT DIRECTIONS

Engineering and markets for the next stage.

Engineering research	The MAXIMUS tennis machine is in development; released only after testing and validation.
More racquet sports and apparel	Padel, pickleball, squash, badminton, racquetball, beach tennis and apparel are directions, not products.
Technology	Blockchain 5.0 for provenance, records and product identity — the stated technology direction.
Education and forums	Education, research and international forums connect the sport with its communities.

Directions are invitations to build together — not products, results or commitments.

STRUCTURE

One relationship. Distinct responsibilities.

Equipment supply	MAXIMUS SPORTS EQUIPMENT TRADING L.L.C — the seller named in each order's Commercial Schedule.
Services and IP	MAXIMUS VEGAS L.L.C-FZ — corporate services and IP management under the owner's mandate.
Institutional programmes	MAXIMUS INVESTMENT BUSINESS CLUB NPIO (DIFC) — not a seller of equipment.
Author	Maximus Kiriyakulov — author of this catalogue and owner of the MAXIMUS® mark.

MIPA-MIBC-20261007-0618-CAT-V6.0 is the internal document code that identifies this catalogue, its version and provenance in MAXIMUS records; it is not a state registration. Licences and exclusivity are granted only by separate written agreement.

HOW TO START

A clear agreement. A practical start.

01 Choose your focus
Method and tools, a collection, a club programme, a brand, retail, distribution or an institutional programme.

02 Write to us
gps@maximus.tennis or the configurator; no call is needed to begin.

03 Qualify the role
We confirm the role, scope and what each side contributes.

04 Put it in writing
A specification and a Commercial Schedule for each order.

05 Launch and review
Delivery, support and a joint review of results.

A non-binding catalogue: a reply creates no purchase or investment obligation.
